

GRANTS

The Southwest Missouri Solid Waste Management District N (SWMSWMD) provides district grant funding to help cities, counties and private organizations, both for-profit and nonprofit, in initiating or expanding waste reduction, reuse and recycling programs. District N allocates an estimated \$50,000 per year for Solid Waste Grant Funding.

Each year, District N holds an annual grant call in which we take applications for projects that fulfill its mission. For more information on our grant program, contact District Planner Joyce Stroud at (417) 236-9012.

Current Grant Application (Butch-put application on web site with an internal link. You may have to convert a MSWord file which I will provide by email to a PDF file)

Grant Evaluation Criteria (Butch-same as for the application)
